

thinking ahead

annual 4-H project plan

Project Citizenship Year 2012

What I want to do and learn in this project (goals)

I will continue my Students Helping Students project, but I want to expand it. I want to expand the number of Projects it does; however, I need help to do this, so I plan on including more actively involved teenagers In this project. I also want to officially form this club at my school, so that we can expand more as well. I would Also like to start this program in the elementary schools if it succeeds at my highschool.

How I plan to reach my goals

I plan to reach my goals my talking with my guidance counselors and other officials at my highschool to start The process of beginning this club at my school. Then I will work with the teachers at my school to identify Dedicated, hard working students that would help this program expand. If this succeeds, then I will work with the County School Board and try to establish this club at the local elementary schools so they can start service Projects at their school as well.

Resources I can use (money, supplies, equipment, help from others, reference material, etc.)

I will utilize my guidance counselors, high school officials, county school officials to help establish and expand This program. I will also apply for grants to help with any materials necessary for these clubs or any fundraisers This program may do.

(This form should be included in the project record section of the 4-H project achievement portfolio.)

looking back

annual 4-H project plan

What I learned (knowledge and skills)

Because of my work in the citizenship project, this year I learned many skills needed to successfully manage and expand a program. I learned how to formally contact and network with local business to secure support and donations. I also learned how to successfully write, shoot, and edit a video that chronicled my work in the citizenship project that was used to help raise awareness about childhood hunger. I also learned how to plan and facilitate a major fundraiser that helped raise a major part of the funding needed for our programs.

I feel I met my goals (or did not meet my goals) because

I feel I met my goals this year. I have started a clothing project that will provide needy students with clothing. I also expanded this program into every school in Fentress county, now we are serving over 250 children each week. Even though we could not officially start a club at my high school, I was able to recruit service clubs, like the Interact Club, to help pack bags of food for the program.

Resources I used (money, supplies, equipment, help from others, reference material, etc.)

To help accomplish my goals, I utilized my guidance counselors and local community members to help establish the Students Helping Students program at other schools. I also recruited local businesses to donate food and supplies for our fundraising events. I utilized local churches and the local 4-H Honor club to help pack bags of food and to help advertise and carry out fundraisers.

Other things I would like to do (future goals)

In the future, I would like to teach a group of responsible, younger 4-H'ers how to successfully manage and sustain this program. Also, I would like to officially create a charity called Students Helping Students. I want to continue to expand my program and start other programs that will continue to help meet the needs of others in my community.
