annual 4-H project plan

What I learned (knowledge and skills)

This past year has been a year of major growth for me in the area of communications. I've pushed myself to come out of my natural introverted shell and expand my people and speaking skills. Even though it may seem more difficult, I've learned much more can be accomplished with a team.

I feel I met my goals (or did not meet my goals) because

I gained new communication skills by taking charge in various things, such as helping organize drama productions & continuing to run my own business. I didn't run for a higher club office as hoped, but instead served as teen leader & achieved an office in Honor Club.

Resources I used (money, supplies, equipment, help from others, reference material, etc.)

This past summer I attended Governor's School for the Arts, during which I lived on a college campus training in filmmaking for a month. This brought me to a whole new level of independence, leadership, and working with others.

Other things I would like to do (future goals)

I plan to continue running my entrepreneurial business. This has helped me gain communication & leadership skills and I hope to use it as a foothold for beginning my college career.
